FRAUDULENT/COUNTERFEIT POLICY STATEMENT

Pickering Electronics understands and appreciates the ever-growing concern to the significant and increasing volume of fraudulent/counterfeit electronic parts entering the supply chain. These parts pose a significant performance, reliability, and safety risk.

In order to counter these parts Pickering Electronics has established requirements and practices to mitigate the risk of buying, receiving, and selling these parts, including.

1/ Pickering Electronics are a quality driven organisation and maintain certification to the international ISO 9001: standard.

2/ Pickering Electronics fully own and control their manufacturing sites and processes; as such have full control of all components entering the production environment.

3/ Pickering Electronics maintain an active list of approved suppliers, these include authorized franchised suppliers, Original Component Manufacturers (OCM) and accredited independent distributors.

4/ Pickering Electronics products are only available through fully owned sales channels and authorised representatives.

OUR COMMITMENT:

Do not knowingly procure fraudulent/counterfeit materials.

Ask our suppliers to undertake reasonable due diligence with their supply chains to assure only genuine materials are purchased.

If we discover fraudulent/counterfeit materials, we will take appropriate actions to remove from the supply chain.
