Pickering Electronics Ltd, export compliance control statement

Pickering Electronics Ltd understands the importance of export compliance within the international supply chain. It is embedded within our quality systems and is an essential part of our operating systems.

TARIFF CLASSIFICATIONS:

Products designed and manufactured by Pickering Electronics Ltd are classified by Pickering Electronics Ltd using the integrated tariff of the United Kingdom.

PRODUCT DEVELOPMENT:

Pickering Electronics Ltd designed products:

The design and development of Pickering Electronics Ltd products and associated IP is fully funded and fully owned by Pickering Electronics Ltd. Products are designed for commercial and industrial test applications and subject to periodic review, are not restricted for export on the UK Strategic Export Control Lists. Products are designed and developed for test applications only and not to be deployed in military ordnance.

Non-Pickering designed products:

For the comparatively small number of products where the design and IP are not owned by Pickering Electronics Ltd, we hold details of tariff information within our ERP system. Such products, subject to periodic review, are not restricted for export on the UK Strategic Export Control Lists.

ITAR / EAR:

Products designed and manufactured by Pickering Electronics Ltd are not of U.S. origin, so are NOT subject to ITAR (International Traffic in Arms regulations) or EAR (Export Administration Regulations).
